

1 VISULOX 5 Packages

i The following packages and components are provided for **Oracle Linux / Red Hat**.

- VISULOX 5 Packages
 - Oracle Linux 9
 - All VISULOX 5 components in one package

1.1 Oracle Linux 9

1.1.1 All VISULOX 5 components in one package

File	visulox-5.0.1-allFiles.el9.tgz
Link	https://sync.amitego-engineering.de/VLX/5.0.1/visulox-5.0.1-allFiles.el9.tgz
md5	f028b4d0ff4b2867f22e7ed42ce833d5
sha1	909323772998465a066e540eb4659f4ba3921e72
sha256	e3864a0ff25b0e6fdf43658158a79470aa288a2cb6fc3acd233db8df1e47d326

Included Visulox components and modules in this package

- **Visulox Signing Key**
- **Visulox RTE** (Run Time Environment)
- **Visulox Core**
- **Visulox end2end**
- **Visulox Portal RTE** (Run Time Environment)
- **Visulox Portal Connector**
- **Visulox Main Gateway** (Only for Cluster installation)
- **Visulox Portal Service**
- **Visulox Clients**

⚠ The Visulox Client files must be extracted from **vlx-vispra-clients-1.0.0.zip** and copied to the **/etc/nginx/html/vlx/client/** folder (create the client folder, if it does not exist) on the portal server. Run **systemctl reload nginx** after copying the files. Then the client files will be available for download via the login page for users.

For more components / modules please contact support@visulox.com.
